ABOUT ME

I'm a full stack developer with 2+ years of professional experience. Most of it has gone into Angular and Node.js, building dashboards and APIs for CustomerCore, a Swiss accounting and invoicing product. I like taking a design and making it feel right to use, and I'm careful with financial data. Right now I'm learning Next.js, NestJS, PostgreSQL and how to build AI features (LLM integration, RAG) so I can work across a wider, more modern stack.

EXPERIENCE

Full Stack Developer — Jun 2025 – present
NovaCTO, Islamabad

- Work on CustomerCore, a Swiss fintech platform that covers accounting, invoicing, VAT, expense tracking and document workflows.
- Build Angular screens and dashboards with TypeScript, RxJS, Tailwind CSS and Material UI, plus reusable components the rest of the team uses.
- Write and maintain Node.js REST APIs: input validation, faster database queries, and careful handling of financial data.
- Take part in sprint planning, stand-ups, retros and code reviews; code ships through CI/CD with Git and Bitbucket.

Web Developer — Aug 2024 – Jun 2025
Volpea Solutions, Islamabad

- Built web applications in Angular and React, working from Figma designs and keeping the result accessible and close to the mock-up.
- Set up and maintained a shared component library used across several projects.
- Helped with Microsoft Azure deployments and CI/CD pipelines, and worked with the designers on mobile and desktop usability in two-week sprints.

Junior Web Developer — Jan 2022 – Feb 2023
Easytect UG, Islamabad

- Built responsive, cross-browser websites in HTML5, CSS3, JavaScript and PHP, and connected them to REST APIs.
- Handled on-page SEO and speed improvements, and helped the team move from JIRA to ClickUp.

SKILLS

Frontend	Angular, Next.js (App Router), React, TypeScript, RxJS, JavaScript, HTML5, CSS3, Tailwind CSS, Angular Material / Material UI, TanStack Query, React Hook Form, Zod
Backend & data	Node.js, Express.js, REST APIs, webhooks, MongoDB (Mongoose), SQL, Python (FastAPI), PHP
AI & integrations	LLM integration (streaming chat, local models via llama.cpp), AI voice agents (Vapi), third-party APIs (Calendly, Zapier)
Tools & process	Git, Bitbucket, CI/CD, Microsoft Azure, automated testing, Agile / Scrum, code reviews, Figma handoff
Learning now	NestJS, PostgreSQL with Prisma, Supabase, Redis and BullMQ, Docker, Kubernetes, RAG, MCP and AI agents, API security. (Not yet used in a job.)

PROJECTS

CustomerCore · **NovaCTO · Angular, TypeScript, RxJS, Node.js**
Multi-module Swiss fintech SaaS platform for accounting, invoicing, VAT management, expense tracking and document workflows.

- Develop Angular dashboards and reusable UI components used across modules.
- Build Node.js REST APIs with input validation and optimized database queries, with secure handling of financial data.

Smart MLS · **Volpea Solutions · Angular, React**
Client web application delivered at Volpea Solutions.

- Implemented responsive, accessible interfaces from Figma designs using the team's shared component library.
- Worked in two-week Agile sprints with Azure-based CI/CD deployments.

BeMyAdmin · **Company and project management tool · Currently in beta**
Company platform and project management tool.

VirtualFit AI · **Office competition project · Next.js, TypeScript, Express, MongoDB, FastAPI, llama.cpp**
Virtual dressing room where users upload a photo, pick a garment and preview how it looks on them, with an AI chatbot to help them choose.

- Built the chat assistants: **Nova AI**, a streaming chat with stored conversations, and an **AI Stylist** that recommends items from the user's wardrobe using a local Qwen2.5 model through llama.cpp.
- Set up a LoRA / QLoRA fine-tuning pipeline with seed datasets and held-out evaluation for the stylist model.

EDUCATION & CERTIFICATES

BS Computer Science
2020 – 2024

Federal Urdu University of Arts, Science & Technology, Islamabad

CGPA 3.62 / 4.0. Coursework included databases, web programming, information security, cloud computing and machine learning.

- **MERN Stack (Basic)**, 80-hour PSEB IT Industry Academia Bridge Program, September 2022
- **IELTS Academic**, overall band 6.5, June 2026

LANGUAGES

English (professional working level) · Urdu (native)
